

PRIVATE INVESTIGATION

The Florida Department of Agriculture and Consumer Services, Division of Licensing, licenses and regulates the private investigative industry in accordance with Chapter 493, Florida Statutes, to ensure the interests of the public are adequately served and protected.

What Is Private Investigation?

"Private Investigation" means the investigation by a person or persons for the purpose of obtaining information with reference to any of the following matters:

- Crime or wrongs done or threatened against the United States or any state or territory of the United States, when operating under express written authority of the governmental official responsible for authorizing such investigation;
- The identity, habits, conduct, movements, whereabouts, affiliations, associations, transactions, reputation or character of any society, person or group of persons;
- The credibility of witnesses or other persons;
- The whereabouts of missing persons, owners of unclaimed property or escheated property, or heirs to estates;
- The location or recovery of lost or stolen property;
- The causes and origin of, or responsibility for, fires, libels, slanders, losses, accidents, damage, or injuries to real or personal property; and
- The business of securing evidence to be used before investigating committees or boards of award or arbitration or in the trial of civil or criminal cases and the preparation therefor.
